

Mill Maintenance Electrical Planner
Teck Resources Ltd – Highland Valley Copper
Posting Date: Tuesday April 30, 2024

Closing Date:

As Canada's largest diversified mining company, Teck is committed to providing the world with essential resources safely and sustainably. We have a rich history of consistently driving innovation, harnessing cutting-edge technology, and cultivating a dynamic environment that empowers our employees to shape the future.

Reporting to the Senior Supervisor, Mill Maintenance, the Planner, Mill Maintenance will be responsible for the planning of daily maintenance tasks in the crushing, grinding, flotation, filtering/drying, reclaim, and leaching areas of the milling complex.

Responsibilities will include managing various maintenance strategies designed to maintain the health, reliability, and overall protection of equipment while keeping to a "Best Practice" planning standard of managing backlogs and SOP's.

Responsibilities:

- Be a courageous safety leader, adhere to and sponsor safety and environmental rules and procedures
- Develop job/plan packages with necessary information to allow efficient scheduling and execution of work
- Verify the scope of work to be performed is accurately captured on work orders
- Determine tasks and sequence necessary to accomplish work
- Identify health and safety risks for each task with required permitting
- Develop adequate work instructions for each task
- Use Key Performance Indicators (KPIs) such as work backlogs to improve on maintenance efficiencies and availability

Qualifications

- Minimum 5 years of supervisory/planning experience in a metallurgical processing plant or equivalent
- Recognized trade qualification, technical diploma or equivalent
- Understanding of planning and scheduling principles and procedures
- Computer literacy including Microsoft Office and working knowledge of a computerized maintenance management system
- Must have Gr.12 or GED
- Possess a valid driver's license
