

Senior Environmental Coordinator, Compliance
Teck Highland Valley Copper
Posting Date: Friday, February 17, 2023

Closing Date: XXXX, 2023

Are you interested in joining a dynamic and passionate team in the field of Environmental Management?

Reporting to Senior Lead Regulatory & Engagement, the Senior Environmental Coordinator, Compliance will be responsible for the coordination and delivery of compliance-related engagements (internal and external), including management and maintenance of the integrated engagement schedule, associated database administration and document review processes. The successful candidate will work as part of a cross-departmental team that works to maintain regulatory compliance and environmental management. The position requires collaboration with a variety of people from across the site and with external consultants and contractors. This role also requires a broad base of scientific knowledge, technical skills, and environmental project management experience.

To be successful in this role, we are looking for someone with outstanding problem solving, interpersonal, and communication skills; a motivated self-starter, who can remain organized and prioritize contending demands in a fast-paced team environment.

Join us in the Highland Valley and enjoy a variety of recreational opportunities, such as hiking, skiing, fishing, and golf! The mine site is a 50-minute drive from Kamloops, B.C. which provides all of the comforts of city living. The mine site is also close to Merritt, Ashcroft, and Logan Lake, which all exude a small town community atmosphere.

Responsibilities:

- Be a courageous safety leader, adhere to and sponsor safety and environmental rules and procedures
- Coordination of compliance reports/ annual report management and submission
- Support internal and external report review processes
- Support development and management of integrated schedule
- Support annual planning meetings
- Maintain and roll out of integrated schedule to Indigenous groups and stakeholders
- Develop meeting framework
- Prepare for and participate in engagement meetings
- Support sampling and monitoring programs for environmental compliance
- Support air and climate related activities including monitoring and reporting;
- Support the implementation and operation of environmental management systems;
- Develop and review regulatory compliance and sustainability reports;
- Support engagement with Indigenous governments and organizations
- General duties as assigned

Qualifications:

- Degree in Environmental Engineering, Environmental Studies, Earth Sciences (Biology, Geography, Geology, Forestry, Agriculture), or Natural Resource field
- Minimum five years of experience in the field of environmental compliance or monitoring, in an industrial environment
- Knowledge of relevant environmental and waste legislation, standards, and effective industry practices
- Valid Class 5 driver's license, with the ability to safely operate different equipment
- Ability to work efficiently with nominal supervision and work independently in outdoor remote locations

At Teck, we value diversity. Our teams work collaboratively and respect each person's unique perspective and contribution.

Qualified applicants interested in joining a dynamic team are encouraged to submit a resume and cover letter electronically.

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.
