

Senior Mine Supervisor
Teck Highland Valley Copper
Posting Date: November 21, 2022

Closing Date: XXX

Reporting to the General Supervisor, Mine Operations, the Senior Mine Supervisor is responsible for leading a team of supervisors and operators in the execution of all mine production and heavy haulage activities across Mine Operations.

To be successful, we are looking for someone with excellent leadership, communication, and interpersonal abilities who will collaborate with and establish strong relationships across multi-disciplinary teams. This role requires versatility and ability to work with a high degree of autonomy in a fast-paced environment, characterized by change and ambiguity. Demonstrated leadership and managerial skills including the ability to empower, coach, and mentor others are vital.

Join us in the Highland Valley and enjoy a variety of recreational opportunities at your fingertips! Whether you enjoy biking and skiing or prefer the laid-back atmosphere of fishing and hiking, there is something for everyone! The mine site is a 50-minute drive from Kamloops, B.C., where you'll find all the comforts of city living. It is also close to Merritt, Ashcroft, and Logan Lake, B.C., which all exude a small-town community atmosphere. Come own the lifestyle you desire, while leading positive change at Teck!

Responsibilities:

- Be a courageous safety leader, ensure the highest standards of Safety and Environmental performance are adhered to within the operation
- Promote a work environment which supports safe and efficient behaviour on the job and an awareness of and compliance with environmental, safety, engineering, and Mines Act requirements
- Contribute mining, construction, and project expertise to support the development of the mine plan
- Develop a high-performance culture within department through strong leadership including appropriate communication, delegation, coaching, and managing performance.
- Administer the collective agreement, safety, and mine and environmental regulations in a manner consistent with policies and procedures
- Perform worksite inspections and safe work observations to identify and correct substandard working conditions and behaviors
- Develop harmonious working relationships within the department and with other departments in the operation
- Coordinate and control mine production plan in order to maximize efficiency and effectiveness to achieve safe production

Qualifications:

- Minimum seven years of proven experience in leading operational activities in a mining environment
- Possess a valid Shift Boss Certificate or be eligible for certification
- Class 5 Drivers' License, or equivalent
- Experience in autonomous operations is considered an asset
- Strong digital literacy and proficiency with fleet management systems; experience in MineStar and Autonomous Haulage Systems is an asset
- Bachelor's Degree in Engineering is considered an asset

At Teck, we value diversity. Our teams work collaboratively and respect each person's unique perspective and contribution.

Qualified applicants interested in joining a dynamic team are encouraged to submit a resume and cover letter electronically.

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.

Teck is a diversified resource company committed to responsible mining and mineral development with major business units focused on copper, steelmaking coal and zinc, as well as investments in energy assets.

Headquartered in Vancouver, Canada, its shares are listed on the Toronto Stock Exchange under the symbols TECK.A and TECK.B and the New York Stock Exchange under the symbol TECK.
