

Tailings Dam Construction Planner – EIT (Engineer in Training) Teck Highland Valley Copper

Citxw Nlaka'pamux Assembly (CNA) Members can receive applications supports from the Employment & Training Department by contacting Madelynn Albert:

Malbert@cna-trust.ca or by calling: (250) 378-1864

Reporting to the General Supervisor, Dam Construction the Planner-EIT, Water & Tailings will be required to work alongside the Tailings Engineering and Operations teams to safely achieving production targets and construction milestones in a timely and cost-effective manner. The successful candidate will be interacting with personnel from all areas of the mine site. As such, this position requires an individual with the ability to work both independently and within a team environment, and who is innovative, resourceful, and a strong communicator. The position will require to have a balance of office and field work, problem solving, and design skills to bring the Long to Mid-Range Plans to an executable level. This position will provide the opportunity to see the construction plan take shape in the field in a fast-paced, safety-conscious environment.

We are always looking for ways to challenge and develop our technical staff, and as a member of the technical services team there will be opportunities to learn from your supervisors, peers, and the experienced workforce. THVC regularly rotates the technical staff in order to promote cross-departmental experience and career development.

Join us in the Highland Valley and enjoy a variety of recreational opportunities at your fingertips. Whether you enjoy biking and skiing, or prefer the laid-back atmosphere of fishing and hiking, there is something for everyone! The mine site is a 50-minute drive from Kamloops, B.C. which provides all the comforts of city living. It is also close to Merritt, Ashcroft, and Logan Lake, which all exude a small-town community atmosphere.

Responsibilities:

- Be a courageous safety leader, adhere to and sponsor safety and environmental rules
- The candidate will be required to work closely with the Tailings Engineering team and Engineer of Record, Tailings Operations Team, long-range planner, Mill Operations and the dam contractor.
- Communicate effectively with other trades supervisors/planners/schedulers and ensure efficient dam construction
- Participate in regular meetings with the Tailings & Water, Mill Operations and Maintenance, Dam Contractor Project Manager, and Engineering Consultants to establish priorities, cost forecasts, opportunities for improvement, etc.
- Prepare customized operational reports and project schedules as required/requested.
- Investigate and introduce new mining and construction technology applications and innovations.
- Other tasks supporting the Tailings and Water Management department as required.

Qualifications:

- University degree in Mine, Civil or Geotechnical Engineering
- Registered, or eligible for registration with EGBC (Formerly APEGBC).
- 1-3 years of experience in an operating mine or heavy civil earthwork construction site

- Experience with Mine planning, construction/project scheduling, or project management would be an asset
- Strong computer skills with experience in MS Office.
- Experience in Mine design or construction software (ex. AutoCAD, Vulcan, Geovia GEMS, etc.) would be an asset
- Exceptional communication, organizational and interpersonal skills.
- Motivated self-starter with the ability to multi-task and excel in a fast paced, dynamic environment
- Strong problem-solving capability
- Possess a valid driver's license

At Teck, we value diversity. Our teams work collaboratively and respect each person's unique perspective and contribution.

Qualified applicants interested in joining a dynamic team are encouraged to submit a resume and cover letter electronically.

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.

Teck is a diversified resource company committed to responsible mining and mineral development with major business units focused on copper, steelmaking coal, zinc and energy. Headquartered in Vancouver, Canada, its shares are listed on the Toronto Stock Exchange under the symbols TECK.A and TECK.B and the New York Stock Exchange under the symbol TECK.

The pursuit of sustainability guides Teck's approach to business. Teck is building partnerships and capacity to confront sustainability challenges within the regions in which it operates and at the global level. In 2020, Teck was named to the Dow Jones Sustainability World Index (DJSI) for the eleventh straight year, indicating that Teck's sustainability practices rank in the top 10 per cent of the world's 2,500 largest public companies in the S&P Global Broad Market Index.
