

**Technical Support Liaison**  
**Teck Highland Valley Copper**  
**Posting Date: XXXX 2022**

---

**Closing Date: XXXX, 2022**

Reporting to the Supervisor, Digital Systems, the Technical Support Liaison, is responsible for providing end-user computing support. This role requires hands-on support with excellent customer service and communication skills to develop positive relationships with clients and technical teams.

To be successful in this role we are looking for someone who has outstanding communication and interpersonal skills, who has exceptional influencing, problem solving, and troubleshooting skills and can translate technical information to people of varying skillsets and backgrounds. Someone who is self-motivated, but collaborates well with a team, and has a passion for continuous improvement.

Join us in the Highland Valley and enjoy a variety of recreational opportunities at your fingertips. Whether you enjoy biking and skiing, or prefer the laid-back atmosphere of fishing and hiking, there is something for everyone! The mine site is a 50-minute drive from Kamloops, B.C. which provides all the comforts of city living. It is also close to Merritt, Ashcroft, and Logan Lake, which all exude a small-town community atmosphere.

**Responsibilities:**

- Be a courageous safety leader, adhere to and sponsor safety and environmental rules and procedures
- Assist end-users with computer, printer and mobile device incidents and requests
- Application and hardware installations
- Network and server support as required
- Identify issues and propose resolutions, advancing to appropriate personnel as needed
- Evaluate information gathered from various sources, reconcile differences, and translate high-level information
- Apply organizational change management techniques to derive more value from existing technologies and ensure maximum adoption of new technologies
- Develop and maintain standards and documentation

**Qualifications:**

- Undergraduate degree in a related field such as Computer Science, Information Technology, or a technical diploma with a combination of relevant experience or certifications
- Three to five years demonstrated ability in delivering and supporting information technology services, network infrastructure or relevant experience in an industrial setting, preferably in mining
- Knowledge of Microsoft Windows desktop and server Operating Systems, virtualization, Active Directory, and computer networking fundamentals
- Experience in Office365, Microsoft Azure, ServiceNow

- Understanding ITIL best practices; experience implementing within a project environment would be an asset
- Valid class five drivers' license
- Working level Spanish is an asset

**Successful candidates must be fully vaccinated against infection by COVID-19. Candidates who are unable to be vaccinated due to a personal characteristic protected under applicable human rights legislation may request to be exempt from this requirement. We will do our best to accommodate those who are unable to be vaccinated.**

At Teck, we value diversity. Our teams work collaboratively and respect each person's unique perspective and contribution.

Qualified applicants interested in joining a dynamic team are encouraged to submit a resume and cover letter electronically.

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.

Teck is a diversified resource company committed to responsible mining and mineral development with major business units focused on copper, steelmaking coal and zinc, as well as investments in energy assets.

Headquartered in Vancouver, Canada, its shares are listed on the Toronto Stock Exchange under the symbols TECK.A and TECK.B and the New York Stock Exchange under the symbol TECK.
